## FINANCIAL HIGHLIGHTS

Group Revenue from Key Segments (S\$'m)
(before inter-segment elimination)

The above charts reflect financial performance of the key business segments only. The charts exclude financials of head office and Primary Production.
Notes:

* In 2022, special dividends of $\$ 0.02$ per share was paid. The special dividends is excluded from the calculation of dividend payout on continuing operations because it relates to the discontinued operations.
\# In 2022 and 2023, capital expenditure includes actual cash flow incurred for the reinstatement of the damaged production lines in connection with the severe flooding at one of the Group's Malaysian factories in December 2021.

1. For 2019 to 2021, the Group's revenue excludes Primary Production business revenue upon its reclassification to discontinued operations following the Group's decision to pursue a sale. The disposal was completed on 4 January 2022.
2. For 2019 to 2021, Group's EBITDA, PBT and PATMI excludes Primary Production business upon its reclassification to discontinued operations following the Group's decision to pursue a sale. The disposal was completed on 4 January 2022.
3. Gross debt is calculated as bank borrowings, lease liabilities and loans from non-controlling interests, excluding those captured under liabilities belonging to disposal group classified as held for sale.
4. Net margin from continuing operations is computed based on Group profit from continuing operations after exceptional items attributable to owners of the Parent
5. Net asset value per share is computed based on total assets less total liabilities and non-controlling interests.
6. Dividend payout on continuing operations is calculated by dividing ordinary dividends against profit from continuing operations after exceptional items attributable to owners of the Parent. The special dividends paid in 2022 is excluded because it relates to the discontinued operations.
7. Current ratio is computed based on total current assets and total current liabilities. Both assets and liabilities belonging to disposal group classified as held for sale are not included in the computation.
8. Net gearing ratio is calculated by dividing net debt/(cash) against equity attributable to owners of the Parent
9. Capital expenditure relates to actual cash flows incurred and includes those of discontinued operations.
10. Price/Book Value is calculated by dividing total market capitalisation against equity attributable to owners of the Parent at the end of the year
11. Price/Revenue is calculated by dividing total market capitalisation at the end of the year against annual revenue.
12. P/E Ratio is calculated by dividing total market capitalisation at the end of the year against Group profit from continuing operations after exceptional items attributable to owners of the Parent
13. Price/CF is calculated by dividing total market capitalisation at the end of the year against net cash from operating activities.
